

R-410A Universal Safety Certification

(8 State CEU Credits)

Developed to provide field service personnel with the necessary training and practical knowledge to safely perform service on systems containing R-410A and R-407C. In addition, this class includes information on the R-22 phase-out, appropriate refrigerant and oil applications, service techniques, as well as safe handling of R-410A.

Contains all information the technician needs to prepare for their R-410A Safety Certification. The R-410A Safety Certification is conducted through the auspices of the membership of the AC&R Safety Coalition.

Below are some of the topics covered:

- R-410A and the R-22 Phaseout
- Refrigerant Chemistry & Applications
- Safety
- Refrigeration & A/C Systems Fundamentals
- Refrigeration Oils & Their Applications
