RE: Martin Hydroelectric Project (FERC No. 349)- Assertion of Coordination between FERC and Central Elmore Water and Sewer Authority

Dear Ms. Bose:

The Lake Martin Home Owners and Boat Owners Association, Inc. (HOBOS) have been actively involved as stakeholders in the Martin Dam Relicensing process for the past three years and we are excited to learn that the Central Elmore Water and Sewer Authority is becoming active in the relicensing process, also.

As representatives of many Lake Martin HOBOS members who own property in, and provide substantial tax revenue to Elmore County, we ask that FERC announce via its email listing for the Martin Project, any meetings scheduled with CEW&SA so that all shareholders are aware of the meeting. In the continued spirit of openness in the relicensing process, we further request that all meetings be open to the public and that FERC accept the responsibility of announcing such meetings.

We look forward to CEW&SA's stakeholder input into the relicensing process.

FOR THE BOARD OF DIRECTORS:

Sincerely,

A handwritten signature in black ink that reads "Jesse M. Cunningham". The signature is written in a cursive style with a large, sweeping initial "J".

Jesse M. Cunningham
President
Lake Martin HOBOS
