

Project Nos. 2165-015 - AL  
Warrior River Hydroelectric Project  
Alabama Power Company  
August 14, 2003

Larry Goldman, Field Supervisor  
Daphne Ecological Services Field Office  
1208-B Main Street  
Daphne, AL 36526

Dear Mr. Goldman:

The Federal Energy Regulatory Commission (Commission) hereby designates Alabama Power Company (APC) as the Commission's non-Federal representative for the purpose of initiating consultation with the U.S. Fish and Wildlife Service (FWS), under Section 7 of the Endangered Species Act for any Federally listed species. This action is in regards to APC's relicensing process and application for the Warrior River Hydroelectric Project.

The current license for this project expires on August 31, 2007. APC is using the Alternative Licensing Process to prepare a preliminary draft Environmental Assessment (EA) that will be part of its relicensing application in lieu of an exhibit E. Kleinschmidt Associates is the contractor that may be performing services for APC in connection with any listed species and in preparation of the application and EA. The application for a new license will be filed with the Commission by August 31, 2005.

If you have any questions please contact Mr. Ron McKittrick at (770) 452-3778 or email [Ronald.mckittrick@ferc.gov](mailto:Ronald.mckittrick@ferc.gov) .

Sincerely,

Edward A. Abrams, Chief  
Hydro East Branch 2
