Subject: E3 IAG (Water Quality) - Progress Report

E3 IAG Update
(May Meetings) 0...

Dear E3 Issue Action Group Member:

Each of you should have received an announcement for the May 21 & 22, 2002 Coosa-Warrior relicensing meetings. The first day will be a joint meeting of the CCRT, Coosa RATs and the WCRT. Part of the information shared at that meeting will include a review of the IAGs' progress to date. Since we do not have an E3 IAG meeting planned for May, I wanted to check in with the group to update you as to the status of our action items and general IAG efforts.

Since our last IAG meeting in March we have been working to complete our E3 action items. At the end of this email, I have included a list of the Action Items from our last meeting with their current status. As listed in the IAG's work plan, Bill Sim is compiling information for the comprehensive water quality report. The preparation of this report requires a lot of a time and work and will be the main focus of this IAG's efforts until it is completed in July.

I have also attached a DRAFT IAG Update, Microsoft PowerPoint slide. We plan to use this slide at the upcoming CCRT, Coosa RATs and WCRT joint meeting to update these Teams on the IAG's progress and accomplishments.

Please call me if you have any questions or comments. As always, we

appreciate your continued participation. Thanks.

Jim

Action Items - As listed in the March 12, 2002 Meeting Notes. Updates are in italics.

* Post finalized work plan and January meeting notes on APC's hydro relicensing web page.
Jason Moak Due - March 22, 2002

These were posted on APC's hydro relicensing web page and are available for your use.

* Prepare and distribute meeting notes and summary to IAG members.
Jim Crew Due - March 29, 2002

The meeting notes were distributed for your review, if you have question or comments please contact us

* Create copies of USFWS 303(d) maps and distribute to IAG members as requested.
Henry Mealing Due - May 8, 2002

Henry has made copies and sent them to the IAG members that requested them at the last meeting. He will bring a few extra copies to the May meetings, if anyone would like one.

* Prepare and distribute information on impacts of low DO on fish bioenergetics.
Henry Mealing Due - May 8, 2002

Henry is pulling this information together for your review and should have it to you shortly.

* Finish water quality report and distribute to the IAG for review.
Bill Sim Due - July 1, 2002

Bill is continuing to develop the water quality report and is on schedule to have it ready for your review in July.
