Issue Statement

R8 Public Education – Identify existing and potential opportunities that promote increased public education regarding the project, recreation opportunities, public safety, and conservation of natural resources, including interpretive opportunities.

IAG Tasks and Responsibilities

The R8 IAG is charged with gathering information on all existing public education/ awareness activities and programs that are related to these hydro projects.

Work Scope & Product

1. Compile information on all existing Public Education and Awareness programs.
2. Develop documents that summarize existing information and makes recommendations where additional information/programs may be needed.

Schedule

The R8 IAG group is anticipated to begin work with a kick-off email of the work plan in late July followed by a conference call in August. The Group will meet via conference call as necessary prior to and following a late August meeting to refine materials for the September RAT meeting. Work product #1 listed above should be completed by August 15, 2001, and work product #2 by September 7th.
