

RATE RIDER RT TEMPORARY OR TEMPORARY EMERGENCY SERVICE

By order of the Alabama Public Service Commission dated January 9, 2004 in Informal Docket # U-4553.

PAGE 1 of 2	EFFECTIVE DATE July, 2011 Billings	REVISION Ninth
-----------------------	--	--------------------------

AVAILABILITY

Available in all areas served from the interconnected system of the Company.

APPLICABILITY

Applicable as a rate rider for a Consumer served under Rate LFS, LPL, LPLE, LPLM, LPM, LPME, LPS, LPSE or XLPTL and requiring service for less than twelve (12) consecutive months. The special rules set forth below will govern and modify the otherwise applicable rate.

TEMPORARY SERVICE

For service to loads of less than 1200 KVA supplied for a single continuous period of less than twelve (12) months:

1. Temporary service will be supplied only when the Company, in its judgment, has available the necessary capacity in plants, lines and other equipment for the service contemplated.
2. Upon receipt of an application for temporary service connection, the Company will furnish the Consumer with the estimated net cost for all material, labor and supplies to be used in installing and removing the necessary poles, wires, meters and equipment to furnish such service, and the Consumer shall pay in advance to the Company the amount of such estimated net connection costs before any work is begun. At the Company's option, billing for temporary service will be made after the service is removed, using the Company's actual cost. A minimum net payment of twenty dollars (\$20.00) shall be made to the Company for each temporary service connection.

TEMPORARY EMERGENCY SERVICE

For service to loads of 1200 KVA, and greater, supplied for a single continuous period of less than twelve (12) months, but not less than seven (7) days:

1. Temporary emergency service will be supplied only when the Company, in its judgment, has available the necessary capacity in plants, lines and other equipment for the service contemplated. After temporary emergency service is established under this provision and the Company, in its judgment, finds that due to operating conditions occurring after the temporary emergency service was established, that capacity is no longer available in the Company's system, the temporary emergency service may be withdrawn on immediate notice, to be restored when the capacity again becomes available in the Company's system.

RATE RIDER RT TEMPORARY OR TEMPORARY EMERGENCY SERVICE

By order of the Alabama Public Service Commission dated January 9, 2004 in Informal Docket # U-4553.

PAGE 2 of 2	EFFECTIVE DATE July, 2011 Billings	REVISION Ninth
-----------------------	--	--------------------------

2. Upon receipt of an application for temporary emergency service connection, the Company will furnish the Consumer with the estimated net cost for all material, labor and supplies to be used in installing and removing the necessary poles, wires, meters and equipment to furnish such service, and the Consumer shall pay in advance to the Company the amount of such estimated net connection costs before any work is begun. At the Company's option, billing for temporary emergency service will be made, using the Company's actual cost after the service is removed.
3. For temporary emergency service, the base bill, as computed under the appropriate applicable rate will be multiplied by 1.25 for service during the months of May through September and by 1.15 for service during the months of October through April. If the temporary emergency service is used less than one (1) month, the capacity requirement established (KW or KVA) and kilowatt-hours consumed during the service period will be projected to a full month and the appropriate rate applied; this amount will then be prorated for the number of days the service is used, but the proration will not be for less than seven (7) days, nor more than two (2) periods in any thirty (30) day period.
4. Requests for Temporary Emergency Service shall include the capacity desired and an estimate of the duration. Requests shall be confirmed in writing within five (5) days by an authorized official of the Consumer.

GENERAL

Service under this rider is subject to rules and regulations approved or prescribed by the Alabama Public Service Commission.
